

Antenna Datasheet

Product OC (Antenna Only): YPCP001AA

(Antenna + Rectangular EVB): YPCP001AAEVB

Version: 1.4

Date: 2025-07-28

Status: Released

Product Name: 4G SMT Mount PCB Chip IFA Embedded Antenna

Key Features:

High efficiency, excellent performance

Frequency band: 600–960 MHz, 1710–2690 MHz

Peak efficiency: 76.79 %

Dimensions: 36 mm × 9 mm × 3 mm

Overview

This wideband LTE/cellular/CDMA SMT antenna is suitable for 4G/3G/2G applications. Operating at 600–960 MHz, 1710–2690 MHz, it's a high-efficiency antenna which is mounted to the device host PCB using conventional PCB reflow process. Ideal for all 4G/LTE applications, it also supports worldwide Cat M and NB-IoT frequency bands. Supplied on tape and reel for high-volume applications, it is compatible with all Quectel's 4G/3G/2G including LPWA modules. We provide comprehensive antenna design support such as simulation, testing and manufacturing for custom antenna solutions to meet your specific application needs.

Note:

- Based on 110 mm × 45.5 mm GND.

1.3. Mechanical & Environmental

Mechanical	
Antenna Size	36 mm × 9 mm × 3 mm
Antenna Material & Color	FR4 & BLACK
Antenna Weight	Typ. 0.8 g
Mounting Type	Soldering
Recommended EVB Size	110 mm × 45.5 mm × 0.8 mm
Environmental	
Operation Temperature	-40 °C to +95 °C
Storage Temperature	-40 °C to +95 °C
RoHS & REACH Compliant	Yes

3 Detailed Performance

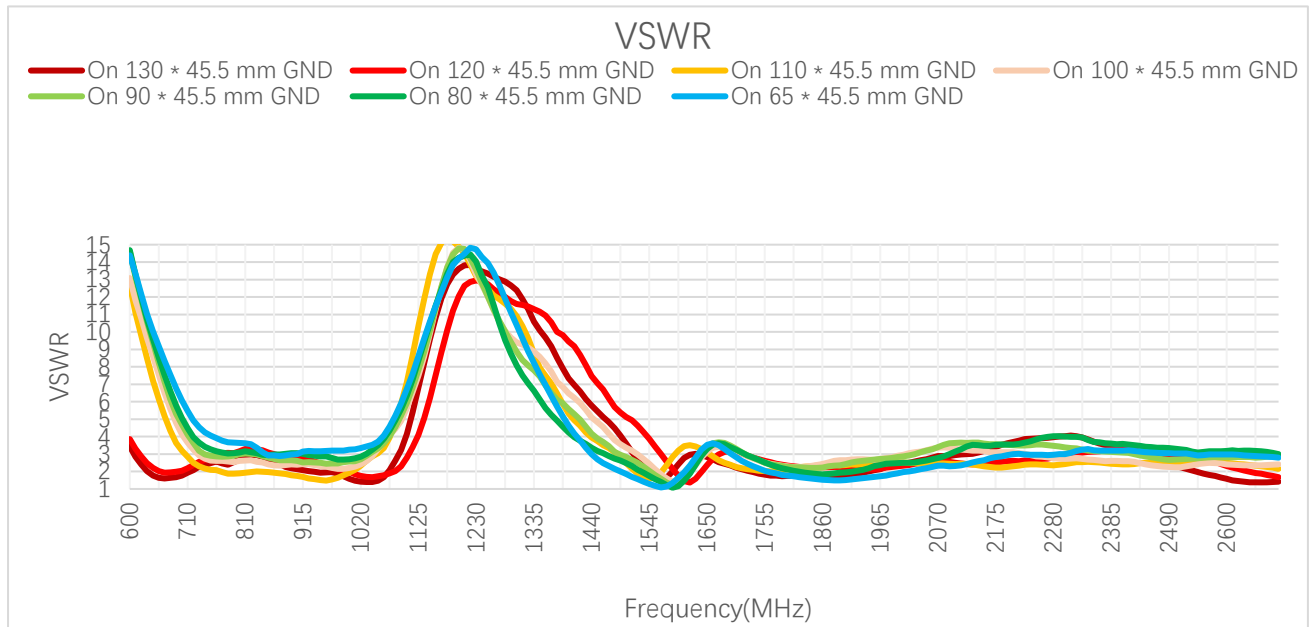

3.1. Overview

The performance of the low bands is highly dependent on the ground plane length. The host PCB ground needs to be as long as the device allows. Reducing the GND directly relates to the performance of the low bands. As shown below you can see the effect of the GND plane length vs the efficiency.

3.2. S-Parameter Test

3.2.1. VSWR

VSWR

Frequency (MHz)	630	710	830	900	1740	1880	1950	2140	2450	2600
On 130 mm × 45.5 mm GND	2.0	1.9	2.9	2.1	1.9	1.7	2.1	3.1	3.0	1.6

3.3.4. 3D & 2D Radiation Pattern

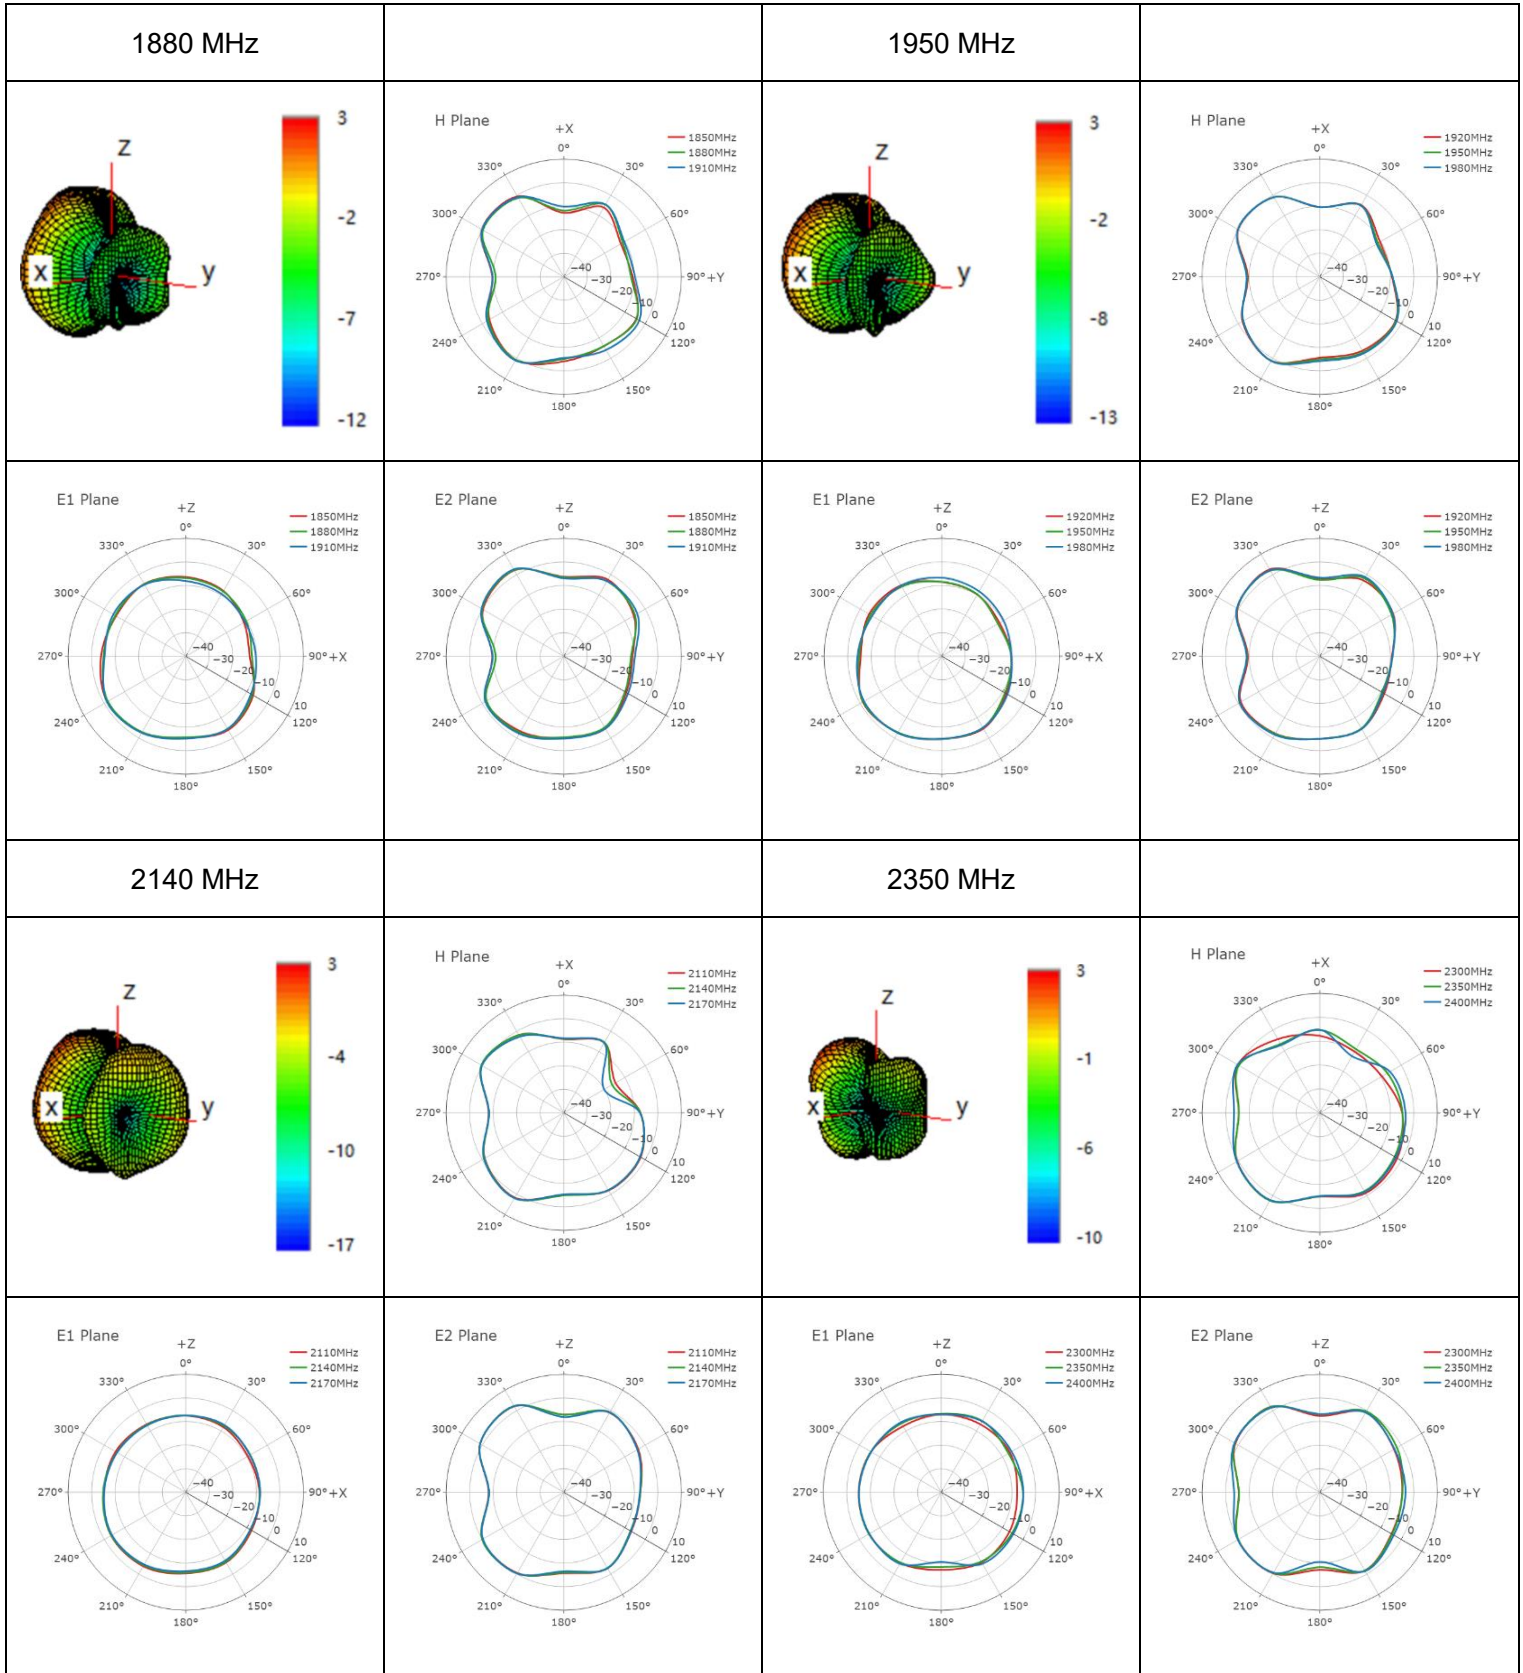

- Test Status: Assembled on 110 mm × 45.5 mm × 0.8 mm GND

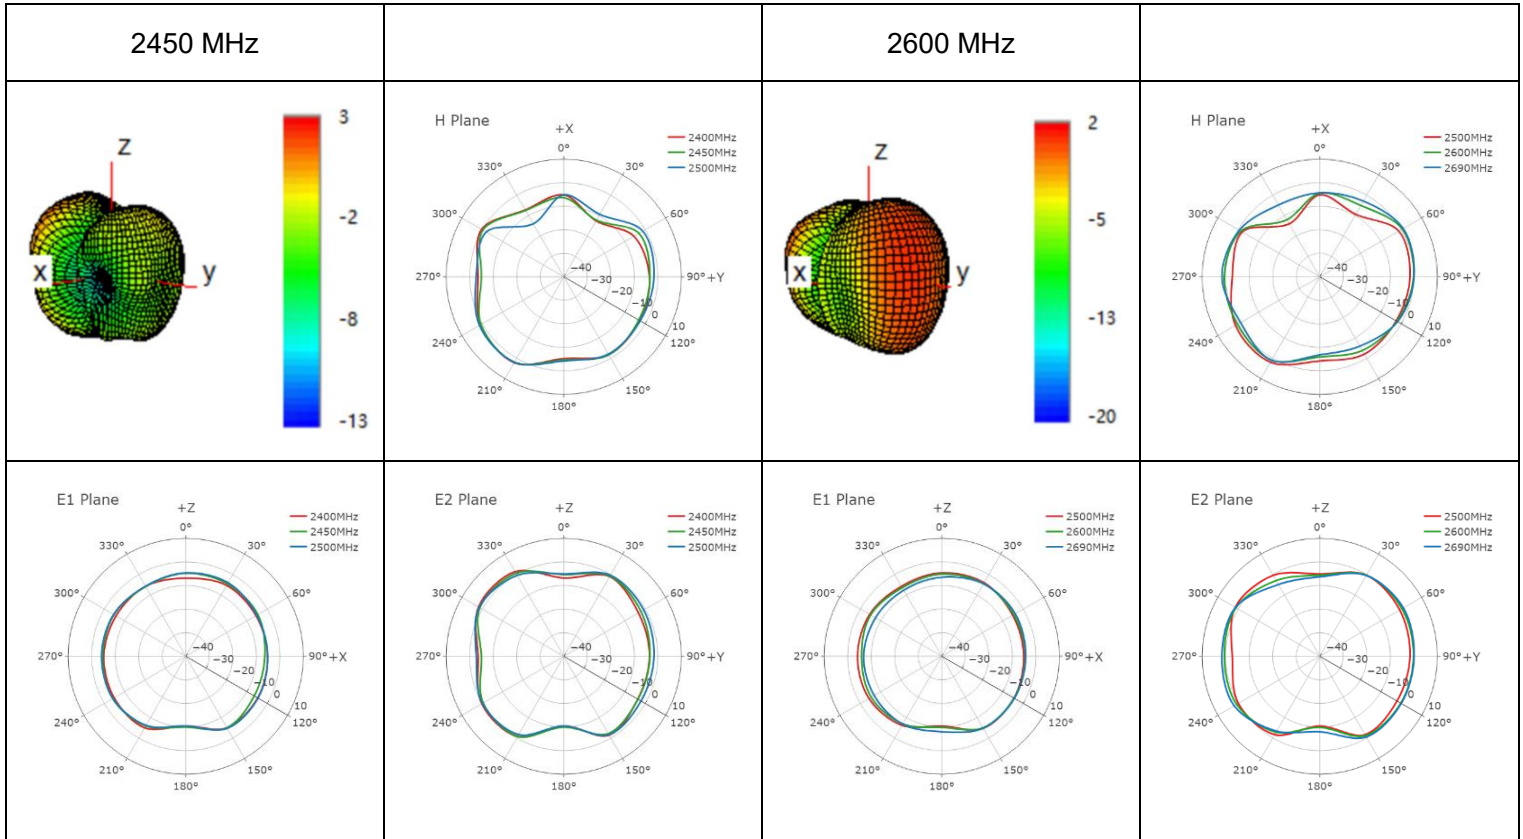

● 4G

● 4G

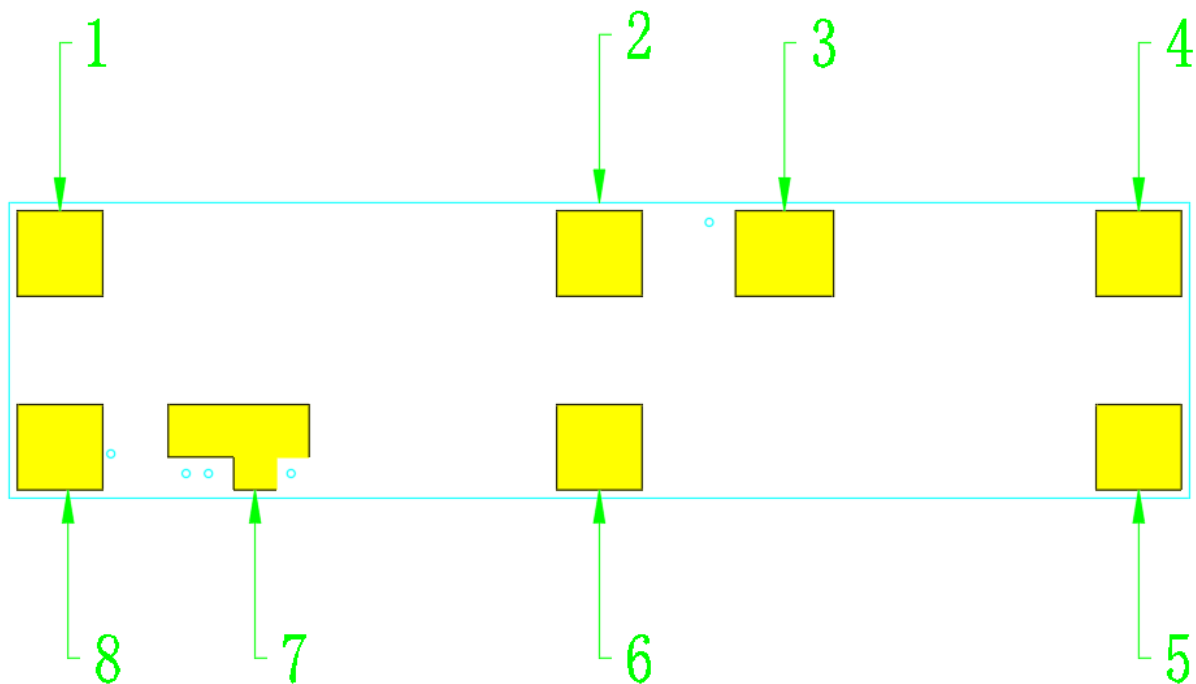

● 4G

4 Schematic Symbol and Pin Definition

- The pin assignment for the antenna is as follows.
- The circuit symbol for the antenna is shown below. The antenna has 8 pins, only three of which work. All other pins are for mechanical strength.

Pin	Description
7	Feed
1, 2, 4, 5, 6	Not used (Mechanical only)
3, 8	Antenna Tuning

5 Transmission Line

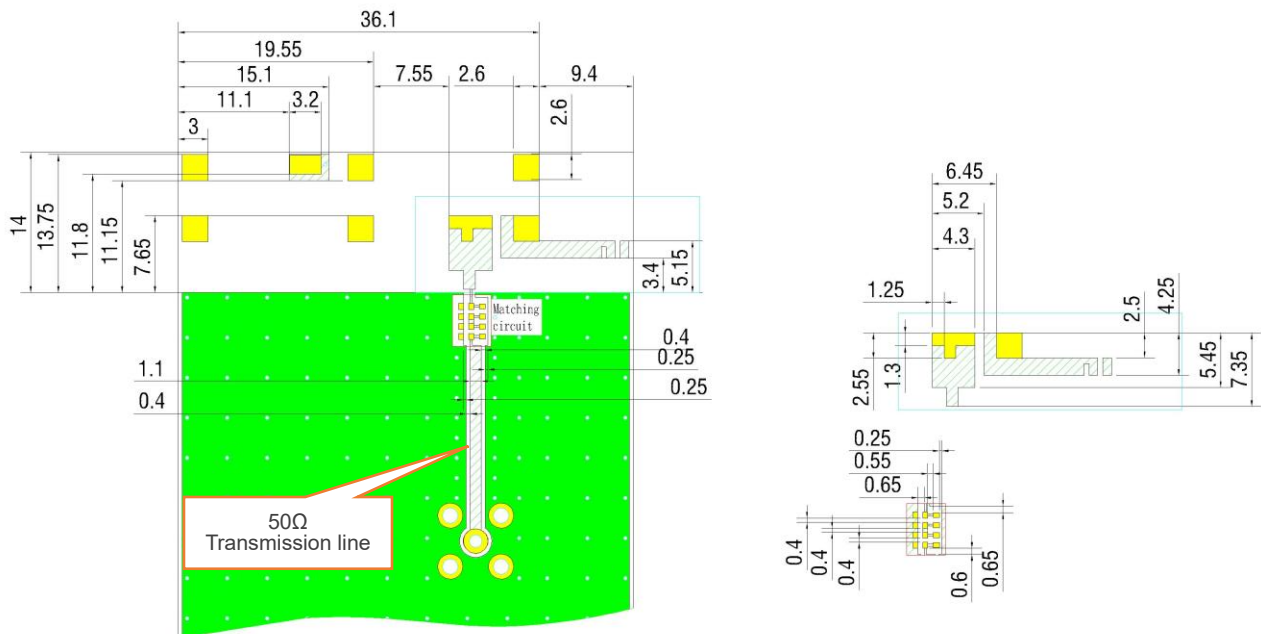

The characteristic impedance of all transmission lines shall be designed as 50 Ω .

- The length of the transmission lines should be kept as short as possible.
- Any other part of the RF system, such as transceiver, power amplifiers, etc., shall also be designed with an impedance of 50 Ω .

Once the material for the PCB has been chosen (PCB thickness and dielectric constant), a coplanar transmission line can easily be designed using any of the commercial software packages for transmission line design. For the chosen PCB thickness, copper thickness and substrate dielectric constant, the program will calculate the appropriate transmission line width and gaps on either side of the track so the characteristic impedance of the coplanar transmission is 50 Ω .

6 Recommended PCB Layout

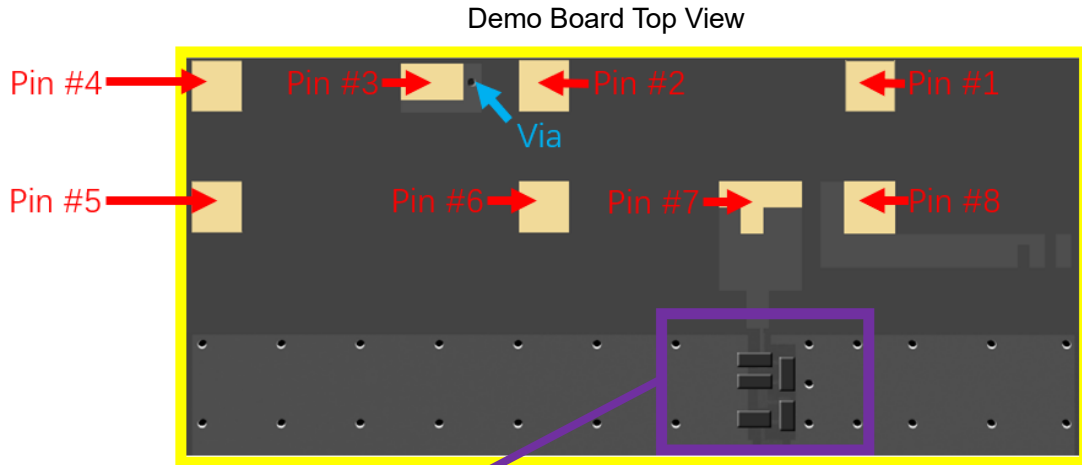

The host PCB must be designed using the PCB footprint shown with the correct clearances. An example of the PCB layout shows the antenna footprint. Please note this clearance area is critical to the performance of the antenna and must be applied through all layers of the PCB.

All dimensions in (mm)

7 Matching Circuit

Antenna Matching

Pads are directly connected to the antenna feed trace.

GND Length \leq 110 mm

	P1	S1	P2	P3	S2	P4
Default Matching	7.5 nH	4.7 pF	0.5 pF	DNI	0 Ohm	0.5 pF
Tolerance	$\pm 5 \%$	$\pm 5 \%$	$\pm 5 \%$	N/A		$\pm 5 \%$

GND length $>$ 110 mm

	P1	S1	P2	P3	S2	P4
Default Matching	10 nH	2.7 pF	0.5 pF	DNI	0 Ohm	12 nH
Tolerance	$\pm 5 \%$	$\pm 5 \%$	$\pm 5 \%$	N/A		$\pm 5 \%$

Pin #	Description
7	Feed
1, 2, 4, 5, 6	Dummy Pad
3, 8	Antenna Tuning

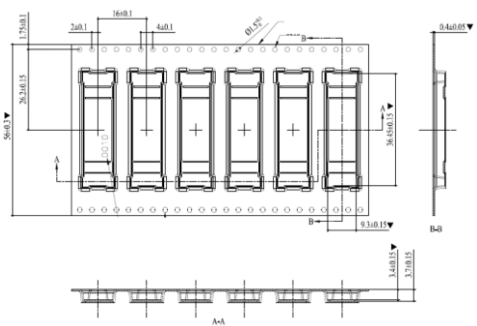

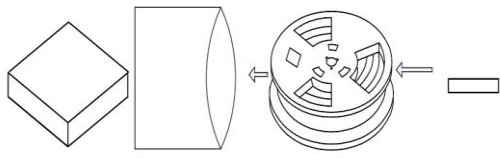

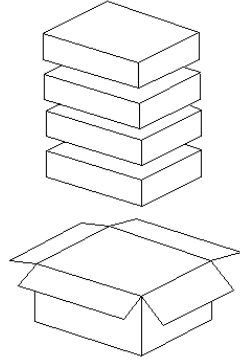

8 Soldering Temperature

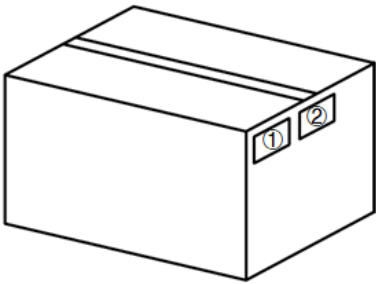

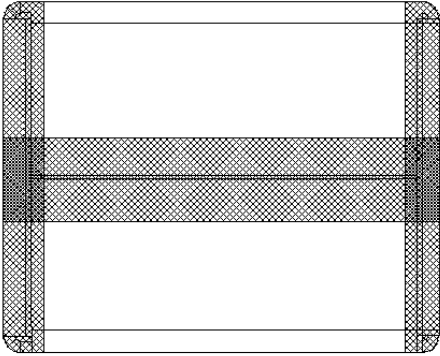

Phase	Profile Features	PB-Free Assembly
RAMP-UP	Avg. Ramp-up Rate (T _{max} to T _p)	3 °C/second (Max.)
PREHEAT	Temperature Min (T _{min}) Temperature Max (T _{max}) Time (t _{min} to t _{max})	150 °C 190 °C 110 seconds (Max.)
REFLOW	Temperature (TL) Total Time above TL (tl)	220 °C 90 seconds (Max.)
PEAK	Temperature (T _p)	230–250 °C
RAMP-DOWN	Rate	-1 °C/second (Max.)

9 Reflow Profile

Legal Notices

We offer information as a service to you. The provided information is based on your requirements and we make every effort to ensure its quality. You agree that you are responsible for using independent analysis and evaluation in designing intended products, and we provide reference designs for illustrative purposes only. Before using any hardware, software or service guided by this document, please read this notice carefully. Even though we employ commercially reasonable efforts to provide the best possible experience, you hereby acknowledge and agree that this document and related services hereunder are provided to you on an “as available” basis. We may revise or restate this document from time to time at our sole discretion without any prior notice to you.

Use and Disclosure Restrictions

License Agreements

Documents and information provided by us shall be kept confidential, unless specific permission is granted. They shall not be accessed or used for any purpose except as expressly provided herein.

Copyright

Our and third-party products hereunder may contain copyrighted material. Such copyrighted material shall not be copied, reproduced, distributed, merged, published, translated, or modified without prior written consent. We and the third party have exclusive rights over copyrighted material. No license shall be granted or conveyed under any patents, copyrights, trademarks, or service mark rights. To avoid ambiguities, purchasing in any form cannot be deemed as granting a license other than the normal non-exclusive, royalty-free license to use the material. We reserve the right to take legal action for noncompliance with abovementioned requirements, unauthorized use, or other illegal or malicious use of the material.

Trademarks

Except as otherwise set forth herein, nothing in this document shall be construed as conferring any rights to use any trademark, trade name or name, abbreviation, or counterfeit product thereof owned by Quectel or any third party in advertising, publicity, or other aspects.

Third-Party Rights

This document may refer to hardware, software and/or documentation owned by one or more third parties (“third-party materials”). Use of such third-party materials shall be governed by all restrictions and obligations applicable thereto.

We make no warranty or representation, either express or implied, regarding the third-party materials, including but not limited to any implied or statutory, warranties of merchantability or fitness for a particular purpose, quiet enjoyment, system integration, information accuracy, and non-infringement of any third-party intellectual property rights with regard to the licensed technology or use thereof. Nothing herein constitutes a representation or warranty by us to either develop, enhance, modify, distribute, market, sell, offer for sale, or otherwise maintain production of any our products or any other hardware, software, device, tool, information, or product. We moreover disclaim any and all warranties arising from the course of dealing or usage of trade.

Privacy Policy

To implement module functionality, certain device data are uploaded to Quectel's or third-party's servers, including carriers, chipset suppliers or customer-designated servers. Quectel, strictly abiding by the relevant laws and regulations, shall retain, use, disclose or otherwise process relevant data for the purpose of performing the service only or as permitted by applicable laws. Before data interaction with third parties, please be informed of their privacy and data security policy.

Disclaimer

- a) We acknowledge no liability for any injury or damage arising from the reliance upon the information.
- b) We shall bear no liability resulting from any inaccuracies or omissions, or from the use of the information contained herein.
- c) While we have made every effort to ensure that the functions and features under development are free from errors, it is possible that they could contain errors, inaccuracies, and omissions. Unless otherwise provided by valid agreement, we make no warranties of any kind, either implied or express, and exclude all liability for any loss or damage suffered in connection with the use of features and functions under development, to the maximum extent permitted by law, regardless of whether such loss or damage may have been foreseeable.
- d) We are not responsible for the accessibility, safety, accuracy, availability, legality, or completeness of information, advertising, commercial offers, products, services, and materials on third-party websites and third-party resources.
