Overview

The YF0011SA is a Wi-Fi FPC antenna measuring 38.9 mm × 9 mm. This Wi-Fi antenna provides coverage from 2400–2500 MHz, 5150–5850 MHz. The antenna has a 100 mm-long cable, terminated with IPEX MHF 4L connector, and is available with customized cable lengths and connectors. This adhesive mount omni-directional antenna, ideal for applications where the antenna is required to be mounted inside, is easy to install thanks to its flexible material. It is compatible with Quectel's Wi-Fi Series modules. It has been tested with FR4 board.

It allows constant and reliable transmission and reception due to its omni-directional gain across all frequency bands. The YF0011SA is designed as a dipole antenna, which is ground independent to offer high efficiency in many different mounting scenarios. It is a perfect antenna product for customers that desire highest performance. This high-efficiency, high-gain omni-directional antenna is ideally suited for smart metering, remote monitoring, vehicle tracking and telematics, and many other IoT devices.

Quectel provides comprehensive antenna design support such as simulation, testing and manufacturing for custom antenna solutions to meet your specific application needs. We have regional R & D centers to offer quick response to meet your requirements. Please contact our sales & FAEs if you have any requests.
